off the shelves

all natural:

If prescription nasal sprays aren't relieving your allergy-related congestion, consider giving Sinus Magic (\$13) a try. Made of all-natural products including aloe, eucalyptus, tea-tree oil and winter-green oils. We tested it on two allergy sufferers, both of whom found relief. Check it out at www.sinusmagic.com.

brush up:

Pediatric dentists recommend you clean your baby's gums with a brush and water before that first tooth appears, and you can do so with Baby's First Toothbrush by Baby Buddy (about \$5 for one). It's for babies 6 months and older. Check it out and order a catalog at www.baby.

a head start:

Inspire your toddler to be physically active with Athletic Baby DVDs (\$17). Set to happy, energetic music, they introduce soccer, golf, basketball, baseball and football using colorful footage of balls, puppets and children playing. Check them out at www.athleticbaby.com or call (972) 781-6806.

foot therapy:

Get your feet ready for summer with Time and Again's Sole Glow Pedi-Care Kit (\$20). Essence of lavender, peppermint, eucalyptus and rosemary provide the soothing benefits of a spa treatment, a pumice stone gently exfoliates dry skin and a toe separator makes polishing nails easier. You can buy it at Carol and Maggie's Tanners and Gifts in Port Huron.
