## Top 8 Sports and Movement DVDs for Active Babies

### **#1 Athletic Baby Walk, Run & Play**

Athletic Baby Walk, Run & Play is a great, basic DVD that will make your baby want to move with the other babies on the screen. New walkers and younger babies may like this DVD because the tasks shown, such as running, hopping or skipping, are more within reach for a young toddler than playing an actual sport. This DVD will get baby started on wanting to be active and enjoying all of the wonderful things his or her body can do.
